PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of professional experience building scalable web applications using React.js, Redux Toolkit, and modern JavaScript. Proven track record delivering full-featured platforms — from real-time chat and interactive dashboards to complex LMS systems — across both full-time and freelance engagements. Currently expanding into full-stack development with Node.js/Express and workflow automation with n8n. Open to remote opportunities.

PROFESSIONAL EXPERIENCE

Frontend Developer | **Amyal Smart Company** | Remote, Full-time *April 2024 – Present*

Project: Elite Platform

- Built a full entertainment and offers platform from scratch using React, Redux Toolkit, and Firebase
- Developed real-time chat, Instagram-style stories, and event creation features
- Implemented user engagement features: marathon challenges, live countdown timers, and winner ranking system
- Integrated Google Maps API for geo-located offers discovery
- Collaborated with a Laravel backend team via AJAX for dashboard integration
- Utilized libraries including Swiper, ApexCharts, SweetAlert2, react-insta-stories, and react-mic

Freelance Frontend Developer *February 2022 – Present*

Project: Ertiqaa Academy <https://ertiqaaedu.com>

- Built complete student experience including multimedia lessons (text, video, image, audio)
- Developed 6+ complex exam types: MCQ, true/false, ordering, matching, fill-in-the-blank, and essay
- Designed modular, reusable components for quizzes and lesson content
- Implemented timed exams, task tracking, final evaluation, and progress analytics
- Tech stack: React, Redux Toolkit, MUI, Radix UI, Firebase, TailwindCSS, Framer Motion, i18n

Project: HAYA Academy <https://hayaedu.com>

- Built full frontend for an educational platform as sole frontend developer
- Implemented full feature set similar to Ertiqaa Academy using jQuery and Laravel

Project: Mrs. Eman Hassan <https://mrs-emanhassan.com>

- Led UI/UX redesign and performance optimization of an existing educational platform
- Maintained and enhanced existing Laravel/jQuery integrations
- Providing ongoing maintenance and visual improvements

Frontend Developer | **Alwasetah Company** | Remote, Full-time *July 2022 – December 2022*

- Improved UI/UX across landing pages and admin dashboards
- Refactored and modernized frontend components aligned with current design standards
- Focused on responsiveness, design fixes, and optimizing legacy codebases

Co-Founder & Frontend Lead | **Web Point (Restaurant ERP System)** *January 2021 – January 2024*

- Co-created and successfully sold a custom Restaurant ERP system deployed in 4+ businesses
- Sole frontend developer for both admin dashboard (menus, orders, drag-and-drop table management) and customer-facing interface (menu browsing, order placement, payments)
