Frontend Engineer

Sharkia, Egypt • (+20) 1007218535 • ibrahimfares511@gmail.com • ibrahimfares.dev • github.com/ibrahimfares511 • linkedin.com/in/ibrahimfares511

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of professional experience delivering production-grade web applications — enterprise warehouse systems, LMS platforms, and restaurant ERP products. Shipped 5+ live products as sole or lead frontend developer, owning full feature cycles from architecture to deployment. Strong in React, TypeScript, and Redux Toolkit; expanding into full-stack development with Node.js/Express and workflow automation with n8n. Available for remote opportunities.

TECHNICAL SKILLS

Frontend	React.js, TypeScript, JavaScript (ES6+), Next.js, Redux Toolkit, RTK Query, Zustand, React Hook Form, Zod, React Router DOM, React DnD, Framer Motion, Vue.js v2
UI & Styling	Tailwind CSS, Material UI, Radix UI, ShadCN UI, Bootstrap, ApexCharts, Recharts, Nivo Charts
Backend & APIs	Node.js, Express.js, RESTful APIs, Firebase (Realtime DB, FCM, Auth), Socket.io, JWT, bcryptjs, Laravel (API integration)
Databases	MySQL, Sequelize ORM, Firebase Realtime Database
Media & Files	react-pdf, pdf.js, Plyr, FFMpeg, MediaRecorder API, SheetJS (xlsx), html2pdf.js
Tools	Git, GitHub, Vite, Figma, Postman, Swagger, n8n, i18next (LTR/RTL)

PROFESSIONAL EXPERIENCE

Frontend Developer | Amyal Smart Company | Remote, Full-time | Apr 2024 – Present

- Built a Warehouse Management System (WMS) from scratch as sole developer — 15 screens covering dashboard analytics, order preparation, cycle count, returns center, driver management, and reporting.
 - Engineered a blind count audit system with SKU-level locking to prevent race conditions when multiple floor workers count the same item simultaneously.
 - Designed interactive visual storage map allocation grid with drag-and-drop bin assignment and real-time low-stock alerts via Socket.io.
 - Implemented dynamic layout injection engine using vanilla JS generating role-aware headers/sidebars across 15 HTML pages from a single source of truth.
 - System supports 100K+ order records with sub-second query performance; serves 6 distinct user roles.
- Stack:** Express.js, Node.js, Socket.io, Sequelize ORM, MySQL, Vanilla JS, Tailwind CSS, Chart.js, SheetJS, JWT

Freelance Frontend Developer | Ertiqaa Academy (ertiqaaedu.com) | Freelance | 2023

- Delivered 68 screens across 4 role-based dashboards (Student, Instructor, Admin, Super Admin).
 - Built a polymorphic timed assessment engine supporting 6 question formats under a unified Redux reducer with automatic progress saving during network interruptions.
 - Solved token refresh race condition in RTK Query middleware using async-mutex, eliminating redundant API calls on simultaneous expired-token requests.
 - Integrated Firebase FCM for real-time notifications; built real-time leaderboard with Firebase observers at <10ms offset and 60fps via requestAnimationFrame.
- Stack:** React 18, TypeScript, Redux Toolkit, RTK Query, Tailwind CSS, Radix UI, Framer Motion, React DnD, react-pdf, Firebase, i18next, Zod

Co-Founder & Lead Frontend Dev | Web Point Restaurant ERP | Project-based | Jan 2021 – Jan 2024

- Co-built and sold a complete Restaurant ERP deployed across 4+ active dining businesses.
 - Built drag-and-drop dining floor layout builder and hand-crafted swipe/touch gesture framework for POS cart without a third-party library.
 - Designed 51 granular RBAC permissions across Admin, Kitchen, Delivery, and Customer-facing roles using Spatie Laravel Permission.
- Stack:** Vue.js v2, Laravel v6, jQuery, Bootstrap v4, Spatie Permission, mPDF, Axios

Freelance Frontend Developer | [HAYA Academy \(hayaedu.com\)](https://hayaedu.com) | Freelance | 2022

- Built a media-rich e-learning platform on Laravel Blade — no SPA framework — with 5+ payment gateways (Stripe, Fawry, Paytm).
- Built anti-piracy video system combining CSS animated floating watermarks with server-side FFMpeg range-based streaming (3MB chunks), blocking direct URL access.
- Implemented browser-based voice recording for oral exam submissions using the MediaRecorder API — captured chunks, converted to MP3 Blob, mapped to form inputs.

Stack: Laravel 11, Alpine.js, jQuery, Tailwind CSS, Plyr, LeaderLine JS, FFMpeg, MediaRecorder API, Firebase JWT

Freelance Frontend Developer | [Mrs. Ayat Asaad Platform](#) | Freelance | 2022

- Complete UI/UX audit and rebuild achieving 80%+ page load speed improvement through CSS/JS refactoring and render-blocking resource elimination.
- Implemented dual-layer anti-piracy (CSS watermark + FFMpeg video, pdf.js canvas for PDFs) and multi-type coupon payment engine with digital wallet integration.

Stack: Laravel 11, Alpine.js, jQuery, Tailwind CSS, pdf.js, FFMpeg, Plyr

Frontend Developer | [Alwasetah Company](#) | Remote, Full-time | Jul 2022 – Dec 2022

- Refactored legacy UI components to modern CSS design tokens; resolved critical rendering bugs across production dashboards.
- Rebuilt responsive layouts for landing pages and admin dashboards achieving full cross-device compatibility.
